

TRAFFIC SIGNAL RECIPE

Directions: Celebrate **Black History Month** with this recipe honoring Garrett Morgan, the African American inventor attributed to inventing the three-position traffic signal that keeps us safe!

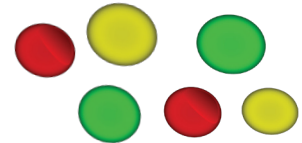

INGREDIENTS:

☐ Graham
☐ Cracker

☐ Peanut
☐ Butter

☐ Red, Yellow, and
☐ Green Candies

DIRECTIONS:

☐ Break the graham cracker into fourths and spread peanut butter on one piece.

☐ Place colorful candies on the graham cracker in the pattern of a traffic light – red, yellow, then green.

Note: One graham cracker will make four traffic signals.

According to History.com, Garrett Morgan invented the three-position traffic signal in 1923.

Prior to that, there were only two settings on signals: **stop (red)** and **go (green)**. By adding the **warning (yellow)** light, drivers are given time to react to traffic around them and, ultimately, the roads are made safer!
