

Attention Bank Visitor

We urge you to check your Credit Score immediately!

Your Credit Score is ready to view as of October 26.

See the report from all 3 credit agencies.

Why would I need to view my Credit Profile?

- **Incorrect information** reported to credit agencies by creditors can lower your Credit Score.
- **Check your credit requests** to see who else checked your credit rating.
- **Find and prevent identity theft** by ensuring that accounts and addresses in your credit history are in-fact yours.
- **Applying for a loan?** Your credit score is what lenders use to qualify you and the interest you will be paying.

Warning: Fraudulent activity in your Credit Profile can lead to much higher interest rates or even prevent you from getting a loan.

Check your credit before it's too late!
