

REINDEER HANDS ART PROJECT

Directions: With the help of an adult, gather the supplies and follow the steps to create your own reindeer on the next page!

SUPPLIES:

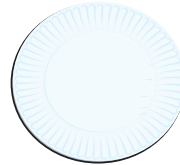

Fuzzy Pom Poms

Googly Eyes

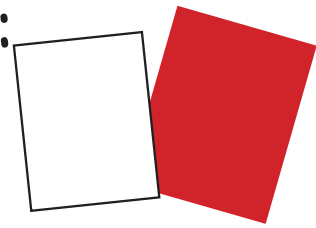

Brown Paint

Paper Plate

Black Marker

White and Red Paper

Squeeze brown paint onto paper plate.

Dip both hands in the

brown paint so that hands are thoroughly covered, but not overly saturated.

Place your right hand on the white paper near the top right corner and then remove

it.  Place your left hand upside down so that the bases of your hands are

next to each other.  Set the paper somewhere safe and wait for paint to

dry.  While paint is drying, use scissors to cut the red construction paper

into small strips that can be used as a scarf.  Once paint is dry, decorate

your reindeer. Use the black marker to draw hooves and a smile, then glue on a

googly eye and add the red scarf. Decorate with fuzzy pom poms.

My reindeer's name is: _____
