## MSUFCU IOLTA Addendum

This Addendum hereby supplements the attached IOLTA Notice to Eligible Financial Institution provided by Michigan State Bar Foundation. To open an IOLTA Money Market Checking account with MSUFCU, the following terms must be acknowledged and accepted.

- IOLTA Money Market Checking follows the same guidelines and fee structure as MSUFCU's Business Money Market Checking.
- Dividends generated from the IOLTA Money Market Checking account must be remitted to the Michigan State Bar Foundation to support charitable purposes. These funds help Michigan's legal service providers assist the state's most vulnerable residents with problems such as domestic violence, child support, health care, and other critical needs.
- Fees will be debited from dividends earned on the IOLTA Money Market Checking account. Fees assessed in excess of dividends earned will be debited from the Business Spartan Saver that shares the same base account number. Negative balances in the Business Spartan Saver will be your responsibility and may be offset from the business account.

I have read, understand, and accept the terms set forth in the MSUFCU IOLTA Addendum.
