

Ride Share Protection

Ride Share Protection covers cardholders and their travel companions for eligible expenses when they use their covered card for a ride share service. Coverage includes reimbursement for medical expenses and the cost to repair or replace personal property that is lost, damaged or destroyed due to an accident during a covered ride share trip. Cardholders are also covered for accidental loss of life, limb, sight, speech or hearing while on a covered ride share trip. Certain terms, conditions and exclusions apply. In order for coverage to apply, the cardholder must use their covered Visa card to secure transactions.

How the benefit works

- Cardholders contact and arrange their trip with a transportation network company
- Cardholders must use their covered card as a payment method for some or all of their passenger fare for the arranged trip
- In event of an accident, cardholders can be reimbursed for their eligible medical expenses and the cost to repair or replace their personal property. Cardholders are also covered for accidental death and dismemberment.
- Cardholders have the option to file the claim at www.cardbenefitservices.com and upload the required documents, pictures, etc.
